Dear NCA

I strongly support :

Stimulating increased visitation to Canberra through the convenience of direct aviation services from Sydney Harbour to the centre of Canberra.

Urgent and important opportunity to connect to other destinations like Bateman's Bay and the South Coast.

The service creates a very smart convenient option for Canberrans to access the centre of Sydney in just one hour. Attractive option to business and government sectors.

A great commercial use of Lake Burley Griffin, affordable, accessible and beneficial for most Canberrans, causing very minimal impact on existing users plus Batemans Bay as a stop over destination

Michael Jarvin
