Subject: Sea Plane on Lake Burley Griffin
Date: Sunday, 30 May 2021 10:02:49 PM

hi there,

I read with interest the discussion paper prepared by NCA regarding potential sea plane flights on Lake Burley Griffin.

My initial response is to say YES.

I believe that availability of additional means of transport - which will be a direct connection between the heart of Canberra and Sydney, will benefit our city. It will promote tourism and be good for business community as well. Unfortunately, the image of Canberra is of a boring place. Sea plane availability will tie in with the ongoing re-development of Northbourne Avenue and City to the Lake project.

I would suggest that the top 3 things NCA should be considering are:

Safety of the plane and the flying conditions
Noise Level
Impact on existing users of the lake, like rowing teams, boats

regards,
Dr Tarun Jain
