**Date:** Sunday, 20 June 2021 3:41:58 AM

---

My reaction to sea planes on Canberra's beautiful lake is of outrage that any government agency would seriously consider such a proposal. Not only would this be a blight on the capitol and affect those who come to the lake for rest and recreation but the noise from these planes seriously affect all those who seek refuge from the noise and pressures of every day life in these chaotic times.

Sincerely

Ethel S Ruymaker
