By Big Belly 2 bins per location
(general & co-mingled)

There are numbers of technologies that can be incorporated into the Pop-Up Village.

A central corridor area of the Pop-Up Village has been as a “Living Lab” environment. This is an opportunity to showcase a range of new and innovative technologies being considered as part of the Union Court redevelopment.

Refer to Technology Masterlist for quantities and detailed descriptions.

-  **Communications Room**
-  **Smart Street Furniture**
